

# CHAMP<sup>®</sup> Insulated PROPAC<sup>®</sup> II

I C E T H E R A P Y W R A P S

## More Effective:

- Stretch fabric wrap with ice chamber attached provides cold and compression to trauma area.
- Specially designed “snap-clamp” closes tightly preventing leakage. Secure Zip Lock closure also available.
- Patient can ambulate with PROPAC<sup>®</sup> II.
- Larger ice chamber.
- Stretch wrap eliminates possible tourniquet effect unlike bags with tie strings.

## Convenient:

- Easy to fill.
- Hook fastener holds wrap and bag in place - no awkward tie strings!
- Fastener adheres anywhere on wrap.
- Fastener allows quick site inspection and reapplication - saves time!

## Comfortable:

- Smooth fabric and insulation everywhere on PROPAC<sup>®</sup> II.

## Economical:

- Competitively priced with alternative ice systems.

## Multiple Uses:

- Knees, elbows, wrist, head and dental.

## Reusable:

- Patients can reuse at home after hospital discharge.
