“Shaped to Fit” for all-day comfort.

No squeezing or bunching behind the knees.

Carolon Comfort Knit™ technology utilizes yarns uniquely designed to wick perspiration away from the skin for all-day wearing comfort in any climate.

Floating heel for easy donning.

Couture compression stockings and socks use advanced high-tech microfiber yarns to provide a soft, silky, luxurious feel on the skin and fashionable for wear with any attire. Couture compression stockings and socks are “shaped to fit”, combining optimal stretch fabric with a unique contouring process providing ease of donning and superior wearing comfort. Stockings fit perfectly and deliver nearly imperceptible yet medically correct compression. In properly graduated stockings, compression is highest at the ankle and gradually reduces up to the top of the stocking.

Antimicrobial Technology

Unmatched Antimicrobial and Anti-Odor Performance

Antimicrobial - Made with 99.9% pure silver, X-Static® enhances socks with permanent anti-odor and antimicrobial performance. It protects the fabric from the growth of odor-causing bacteria and fungus – keep your feet fresh and odor-free!

Permanent - Will not wash or wear out. Performs for the life of the product.

Regulates Temperature - Natural temperature-regulating properties keep your feet cooler in the summer and warmer in the winter.

See how the magic of silver works: Watch the X-Static video on your smartphone with your QR Code Reader App, or go to carolon.com and choose the Couture tab to watch the video.
